LIMITED WARRANTIES – DENTAL PROCEDURES

Actively practicing preventative dentistry is the key to a healthy smile. This involves regular check-ups, proper brushing and flossing regimen and any other treatments recommended by your dentist and hygienist. With proper care, your teeth and gums are winners!

At Traders Point Dental, it is our goal to satisfy each and every patient. We stand behind our work 100% and back it up with our warranty, a reassurance many practices do not offer.

- ü Composite (tooth colored) Fillings – For a period of three years from the date of service, Traders Point Dental will repair a composite filling due to breakage, poor fit or decay resulting from the dental procedure. In the rare occasion where a crown is required to repair the tooth, Traders Point Dental will credit the cost of the composite filling towards the cost of a crown and build up.
- ü Crowns and Bridges - Five years from the date of service, Traders Point Dental will repair a crown or bridge due to breakage, poor fit or decay. This is at no extra cost to the patient during the warranty period. It should be noted that porcelain crowns can chip, where gold crowns do not. When choosing between the two, please keep this in mind. Our warranty covers all chips in porcelain crowns for up to five years. Any repairs after that period will be assessed the regular fee.
- ü Root Canals – While root canal therapy is highly successful, approximately 4% do fail. In such rare cases, it may be necessary to refer you to an endodontist, who specializes in these procedures. Traders Point Dental will, during a three year period from the date of service, refund the cost of the unsuccessful root canal.

Warranties are contingent upon a patient maintaining all scheduled hygiene visits and recommended continuing care after the procedure has taken place. All warranties are considered null and void otherwise.

All warranties are subject to change without notice.
